Summary

A results-driven Software Engineer with 3.9 years of experience in designing, developing, and deploying robust software solutions. Proficient in JavaScript, as well as the MERN and MEAN stacks, with a proven track record of delivering high-quality code that consistently meets project requirements and exceeds client expectations. Highly skilled in problem-solving and troubleshooting complex technical issues, with a strong commitment to delivering scalable, efficient, and maintainable software solutions that drive organizational growth and success.

Work Experience

Senior Software Engineer, SAAS Engineering **Oct 2022 - Present**
IDS Next Business Solutions Pvt Ltd **Bangalore**

- Spearheaded multiple software development projects, including **fx-reservation**, **group-block** and **fx-reports**, as a Front-End Developer.
- Utilized expertise in JavaScript and Angular frameworks to build user-friendly, high-performance interfaces.
- Focused on innovation and problem-solving to overcome challenges throughout the project lifecycles.
- Collaborated closely with cross-functional teams to ensure timely delivery of software solutions.
- Added a translation feature to support multiple countries, enhancing the global usability of the software.
- Collaborated closely with cross-functional teams to ensure timely delivery of software solutions.
- Conducted thorough testing and troubleshooting to identify and resolve front-end issues, ensuring optimal performance and user experience.
- Ensured all delivered software solutions aligned with client requirements and adhered to industry standards.

Software Engineer **Jan 2022 - Sep 2022**
Masai School (Nolan Edtech Pvt Ltd) **Bangalore**

- Provided comprehensive support to over 200 students by resolving queries related to the MERN stack via Zoom sessions, resulting in a 40-45% reduction in raised doubt tickets.
 - Contributed to the development of a Student Learning Management System (LMS) using the MERN Stack and Tailwind CSS, incorporating key features such as user authentication, video streaming, quizzes, progress tracking, lecture notes, assignments, polls, and certification, which led to a 30% increase in user engagement.
 - Designed and implemented a real-time ticketing system for student support, improving issue resolution efficiency by 40%.
 - Proactively identified and resolved bugs and technical issues within the LMS, resulting in a 25% improvement in overall user experience.
 - Technologies utilized: HTML, CSS, JavaScript, React.js, Redux, Node.js, Express.js, MongoDB, Tailwind CSS.
-

Skill Set

Frontend: HTML, CSS, JavaScript, Angular, Angular Material, React.js, Redux, Bootstrap, Material UI

Backend & Database: Node.js, Express.js, JWT, MongoDB, Data Structure and Algorithms (DSA)

Tools: Git, GitHub, Postman, VS Code

Personal Project

Busy Beats ([code](#), [link](#)): Developed a web application, allowing users to add and export tasks in text format. The application includes features such as task copy, edit, delete, copy all data and bidirectional date navigation for data forwarding, among others.

Resume Builder ([code](#), [link](#)): A web application that allows users to create and download their resumes in PDF format by simply filling in their personal details. Users can also preview their resume in real-time while entering the information.

One Doc ([code](#), [link](#)): A web application that enables users to create important documents with a wide range of advanced editor features. These documents are saved for future use, ensuring they remain accessible and fully editable at any time.

Education

Masters of Technology (M. Tech): Vikrant University, Gwalior, M.P. **2023 - 2025**

Full Stack Web Development Course: Masai School, Bangalore **2021 - 2022**

Bachelor of Technology (B. Tech): Shri Shankaracharya Technical Campus, Bhilai Chhattisgarh **2016 - 2020**
